Energy Services and Renewable Technician

Get Trained in the Fastest Growing Sector of Energy

There are many options within the ESRE program:
- Leverage courses in training programs
- Individual college courses for professional development
- Complete a Certificate or Associate of Applied Science in ESRE

Enhance Your Career:
- Become qualified as an energy services or renewable technician
- Flexible to fit your schedule
- Industry qualified instructor
- Align to your tuition reimbursement program
- Take a single course or complete a certificate or degree
- Interactive industry approved online education

Benefits:
- Online/hands-on training
- Fully accredited
- Completely transferable
- Credit for your experience
- Tuition savings
- Start any time

Enhance Your Company Training:
- Leverage cutting edge learning tools
- Accelerate development from within
- Standardize across regional/national footprint
- Qualified instructor led and industry-approved
- Align to your tuition reimbursement program
- Content developed by industry, for industry

BSC is a registered provider of the North American Board of Certified Energy Practitioners (NABCEP) Associate Program Exam. The NABCEP Photovoltaic Associate Program is designed for those individuals wanting to enter the solar field.

Want to be a part of the transformation of the nation’s energy system?
The continued growth of the renewable energy sector requires knowledgeable and skilled workers dedicated to leading us towards a sustainable energy future. The Energy Services and Renewable Technician (ESRE) program at Bismarck State College (BSC) prepares individuals for field service technical careers in renewable generation or industrial and manufacturing sectors. Individuals receive a broad background in: Energy Production, Electrical and Mechanical Fundamentals, Equipment and Systems, Applied Math, and Safety Practices.
